CHECKS, NOT WARRANTS,  
FOR TEACHERS THIS MONTH.

Frankfort, Dec. 10. — The monthly installment of state school funds payable to the counties will go to the schools Saturday in the form of treasurer's checks instead of warrants bearing five per cent. interest, as was the case in November, it was announced at the office of the State Superintendent of Public Instruction today. Receipt of taxes from sheriffs of the various counties has replenished the treasury, it was stated. Kentucky assists the schools by payment of approximately \$650,000 monthly. The aid fund is paid in six equal monthly installments and aggregates \$6.10 for each child of school age in the various districts. The minimum school term under the Kentucky law is six months.

### 243 MOONSHINE STILLS

WERE DESTROYED.

Field agents of the prohibition department of the United States government have destroyed 243 whisky stills in the Eastern District of Kentucky since January 1, according to U. G. McFarland, chief field deputy in the office of Prohibition Director Paul Williams at Lexington.

No record is kept, he said, of the amount of whisky and beer destroyed along with the stills.

This does not account for raids on soft drink parlors and other places suspected of violation of the prohibition laws.

### RAISING TURKEYS PROVES PROFITABLE.

Mrs. H. W. Whales of Cedar Creek, one of our county's most estimable housewives, sold 21 turkeys the past fall for the neat sum of \$114.76, which is over \$5 per head, and clearly indicates that it is profitable to give some attention to turkeys. — Mt. Olivet Tribune-Democrat.

## WATERWAY MEN ASKED TO CLEAN FEDERAL UNITS

Speaker Before River and Harbors Congress Urges Support to Co-ordinating Federal Agencies.

Washington, Dec. 10.—A plea for a "clean up" of the "hodge-podge that we call a government organization" on the ground that "it was never born; it just grew," was made today to the National Rivers and Harbors Congress by M. O. Leighton, Chairman of the National Public Works Department. As an illustration of the need of reorganization, he said that it was impossible to build a business like waterways structure "on a rotten foundation."

Business efficiency depends largely on co-ordination of activities, the speaker said, adding that twenty-five separate government agencies dealt with the design and construction of buildings. Annual federal public works appropriations aggregate something like \$400,000,000, he said, and co-ordination of federal functions, some of them now "admittedly inefficient and wasteful," out to save 20 per cent. or \$80,000,000 a year. He urged the "waterways people" to support "Congress in its determination to change the order or departmental things."

O. C. Merrill, Executive Secretary of the Federal Water Power Commission, told the convention that applications had been filed with him since the commission was created at the last session of Congress covering navigable river water power development projects aggregating \$480,000 horsepower.

An appeal for government aid in establishing a barge line on the Upper Mississippi River was made today to the House Interstate and Foreign Commerce Committee by a dozen delegates to the National Rivers and Harbors Congress.

Dodge had been sole manager of the Dodge Bros. Automobile Co. of Detroit since the death of his brother, John, last year.

### BASSETT MAKES GOOD AS USUAL.
